

Sharing Economy UK is an independent, not-for-profit trade body set up in 2015 to champion and support sharing economy businesses. In March 2017 we partnered with the CBI – the UK’s largest business lobby group.

ABOUT US

Supporting: We work closely with government and policymakers, representing the sharing economy community and lobbying for changes to protect consumers and sharing economy businesses.

Regulating: Our members are asked to sign up to a code of conduct, which sets out standards for staff training, safety and complaints procedures.

Unlocking: We launched in 2015 following an independent government-commissioned review, entitled ‘Unlocking the UK’s sharing economy’.

Definition: The sharing economy involves using internet technologies to connect groups of people and organisations to make better use of goods, skills, services, capital and spaces.
